PROJECTS

[Mark-It](#) - *Best Presentation Award* *May 2020*

- Collaborated in a timely manner to produce a full-stack web application
- Utilized MySQL/Sequelize to build database with complex data associations
- Used ReactJS to create a smooth and simple user-friendly experience
- Implemented multiple external API queries and Node.js modules for a robust array of application features and data encryption

[To-Gather](#) - *Best Presentation Award* *April 2020*

- Managed and led team of 4 using GitHub Projects and KanBan board
- Constructed application database with complex associations using MySQL/Sequelize
- Wrote database queries to correctly create/read/update/display relevant user information
- Incorporated multiple Node.js module packages for a robust array of features and data encryption
- Developed front-end using HandlebarsJS resulting in a clean UI/UX

[Social || Distance](#) - *Best Presentation Award* *March 2020*

- Worked collaboratively with a team of four to produce a web application in one week

- Incorporated Skeleton CSS Framework and AnimateCSS for a more attractive and clean UI/UX
- Utilized JavaScript, HTML5 and CSS to create animated 'Breath Timer' which gave us an interactive application feature

EXPERIENCE

Area Building Services Manager
Nordstrom Inc, Seattle, WA

Dec. 2015 – Feb. 2019

- Supervised teams of 3-4 employees across multiple locations ensuring consistent standards of aesthetics, health, and safety.
- Regularly maintained and repaired complex building systems to ensure smooth operation of company internal processes
- Launched multiple projects to improve customer and employee experience, focusing on efficiency, comfort, and ease/consistency of access across locations

Operations Specialist
University BookStore, Seattle, WA

Feb. 2006 – Dec. 2015

- Acted as lead maintenance specialist for 9 locations ensuring consistent customer and employee experience
- Partnered with regional locations to organize on-site bookfairs, including set-up, operation, and tear-down, resulting in a pleasant and efficient customer experience
- Coordinated and managed the interior demolition of a company location following its closure; required detailed individual and collaborative project communication and follow-through, allowing for timely conclusion of company contracts

AWARDS
