- Exercised both creative and administrative skillsets in high tension production environments

Selected Projects

Mark-It

<https://awesome-mark-it.herokuapp.com>

A full-stack application connecting consumers and artisan vendors - bringing the Farmer's Market experience to your computer or phone!

To-Gather

<http://awesome-group-planner.herokuapp.com/>

An event-planning application aimed at groups of users collaborating on any kind of project or endeavor. Users can track event details, tasks and even budgets over multiple events and collaborators. *I served as Project Manager for this application.*
